

Energy Efficiency Programs Outreach Professional

Oak Brook, Illinois

We are looking for an experienced and talented Outreach Professional to lead the technical sales outreach effort to promote and increase participation in our energy efficiency utilities programs midstream (instant discount) and downstream residential and commercial. As an outreach professional for energy efficiency programs with Energy Sciences, you will join our team of degreed energy efficiency professionals helping utility customers take advantage of incentives to reduce energy use in residential and commercial buildings and industrial processes and plants.

This position has a home-based office in the Greater-Chicago area. Up to 100% local travel is required. A local candidate is preferred.

About you

- You are a collaborative, enterprising individual who likes to work in an open team environment.
- You are a team player.
- You are a highly motivated self-starter who takes initiative.
- You can raise the performance bar and energize the entire team.
- You are excited about challenging the status quo and offer creative ideas for growth.
- You are a hard worker who can work with autonomy and independence.
- You have excellent verbal and written communication skills.
- You are able to make quick and sound decisions.
- You are able to develop solutions to a variety of complex problems.

Your background

- Bachelor's degree in business, marketing, or engineering or related field.
- Five to ten years of experience with commercial and residential utilities programs and working with energy efficiency service providers or trade allies.
- Experience and/or strong interest in energy efficiency and/or environmental programs.
- Outreach and energy efficiency technical sales experience.
- Familiar with utility commercial and residential energy efficiency incentive programs including: HVAC and HVAC control, energy management, compressed air, lighting and lighting control and refrigeration.

- Good knowledge of HVAC, lighting, compressed air, refrigeration, HVAC control, lighting, and lighting control systems.
- Experience giving presentations to utility mid-level managers and leadership.
- Managing utility programs outreach scope, schedule, and budget.
- Experience working with CRMs/Salesforce.
- Certified energy manager (CEM) preferred.

Day to day

- Develop awareness in and adoption of targeted energy efficient technologies, strategic market development, enhanced customer satisfaction, as well as delivering on client goals related to outreach activity and energy savings.
- Develop a comprehensive understanding of the business customer base.
- Develop and implement long-term outreach plans for growing energy efficiency work in the designated territory for customers and trade allies.
- Integrate program offerings into customer operations to improve customer service and satisfaction.
- Recruit and work with a network of energy efficiency program service providers and trade allies within a territory to:
 - Build a base of “registered” Trade Allies specific to the specified programs.
 - Ensure they are fully aware of how to participate in the program.
 - Identify, facilitate, and expedite energy efficiency opportunities related to HVAC, lighting, HVAC control, lighting control, refrigeration, and compressed air.
 - Educate on how to leverage the energy efficient technology and utility programs for their and their customers’ benefit.
 - Encourage effective marketing of programs.
 - Build relationships and engage with distributors.
- Work in cooperation with other energy efficiency programs to move projects forward and follow-up on leads.
- Perform event planning, coordination, and presentations of programs.
- Maintain organized project files containing project documentation, correspondence, appropriate reference materials, etc.
- Prepare weekly, monthly, and quarterly activity reports and track progress towards program goals.

Benefits

We offer an excellent full-time benefits package including DAY 1 benefits (medical, dental, vision, life, STD, LTD) a retirement plan with match, profit sharing, 13 paid holidays and 120 hours of paid time off starting in year 1.
