

Small Footprint, Big Impact.

Founded in 2008, Energy Sciences is an established and trusted resource that provides tailored energy consulting services and solutions with pride and integrity.

Headquartered in Berkley, Michigan, the Energy Sciences mission has a broad reach throughout the Midwest and beyond; we practice and promote sustainability and strive to be socially responsible for the benefit of our planet and its inhabitants.

Working closely alongside building owners, facilities managers, contractors, and service providers, our diverse and highly skilled team provides a full spectrum of consulting and turnkey services to ensure the most impactful and sustainable outcomes.
